MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Deputy Director for Administration

FROM: Robert W. Gambino
Director of Security

SUBJECT: Damage Assessment of Material Furnished to the House Select Committee on Intelligence

1. Action Requested: None; for information only.

2. Background: Reference is made to my previous memorandum to you of 29 September 1976 which resulted in your approval to create an Agency-wide task force, chaired by the Office of Security, to conduct a damage assessment of the classified information provided to the now-defunct House Select Committee on Intelligence (HSC). As you are aware, at the time of this request there had been a number of compromises of classified Agency information from the HSC, culminating in the unauthorized printing of the HSC's draft report in the Village Voice. In view of the large volume of material which the Agency had furnished to the HSC in connection with that Committee's inquiry, the assessment was limited to classified information which, if disclosed, would compromise sensitive Agency sources and/or current Agency projects or operations.

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Deputy Director for Administration

FROM: Sidney D. Stembridge
Acting Director of Security

25 APR 1977

SUBJECT: Damage Assessment of Material Furnished to the House Select Committee on Intelligence

1. Action Requested: None; for information only.

2. Background: Attached herewith is the final report of the Ad Hoc Task Force which was established to conduct a damage assessment of the documents which the Agency furnished to the now-defunct House Select Committee on Intelligence (HSC). As you will note, the damage assessment was limited to those documents furnished the HSC which would compromise sensitive Agency sources and methods and/or ongoing projects and operations. The attached report from the Chairman of the Task Force has as attachments the responses from the various directorate representatives who reviewed the material, which contain both recommendations for future actions and explanations as to remedial steps already undertaken by the respective directorates.

MEMORANDUM FOR: Director of Security

FROM : Chairman, Ad Hoc Damage Assessment Task Force

SUBJECT : Probable Compromise of Information Forwarded to The House Select Committee on Intelligence

1. In response to your memorandum of 29 September 1976 to the Deputy Director of Central Intelligence establishing a task force to conduct a damage assessment of the documents provided the House Select Committee (Pike Committee), the task force has now completed its work. Although each and every document was meticulously examined, we, carefully adhering to your guidelines, limited the reporting to those documents or category of documents in which sensitive Agency sources and/or current Agency projects of operations were disclosed.

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : Robert W. Gambino
Director of Security

VIA : Acting Deputy Director for Administration

SUBJECT : Probable Compromise of Information Furnished to the House Select Committee on Intelligence

1. Action Requested: Your approval is requested to assemble an Agency-wide task force to conduct an overall damage assessment of the classified documents and/or information previously furnished by the Agency to the now defunct House Select Committee on Intelligence (HSC).

2. Basic Data: I have been concerned for some time with respect to the improper manner in which classified information supplied to the HSC by the Executive Branch was handled from a security standpoint and which culminated in the leak of the HSC's draft report to Daniel Schorr. As you know, leaks of classified information to the news media by the HSC began shortly after its creation and continued throughout the life of that Committee.

In addition to the news leaks, there have been several allegations (both substantiated and unsubstantiated) concerning classified Agency and Intelligence Community documents which have found their way from the HSC into the hands of unauthorized persons. Two of these allegations have been referred to the Federal Bureau of Investigation (FBI) and in at least one instance (the classified Agency documents found on the West Coast by R&D Associates) the FBI is conducting an active investigation.

The House Committee on Standards of Official Conduct inquiry into the circumstances surrounding the leak of the HSC's draft report to Daniel Schorr generated substantial testimony by former members and staff of the HSC regarding the

Approved for Release: 2020/01/31 C02317107

degree of protection afforded to classified Executive Branch information by the HSC Staff. This testimony clearly demonstrated that the HSC Staff failed to provide adequate storage and control over classified documents, to include little or no control over the copies made or access to classified material. Further, the magnitude of this situation cannot be determined through an inventory of the sealed cartons stored at the Agency attendant to the "missing documents" allegation, since there is no way of knowing how many copies have been made of these documents nor to whom any such copies may have been provided.

In view of the inadequate security practices employed by the HSC Staff, it would seem to be a fair assumption that much, if not all, of the classified information provided to them by the Executive Branch has been compromised. The allegations and disclosures related to the documents and information provided to the HSC continue to surface at regular intervals, and with each such occurrence the Agency is required to react and prepare a damage assessment on a case-by-case basis.

I feel strongly that the Agency, and perhaps the entire Intelligence Community, should initiate an overall review of the classified information provided to the HSC with a view towards preparing a comprehensive damage assessment. Admittedly, this is an overwhelming task. It could, however, be reduced somewhat by limiting our review to that classified data supplied to the HSC the disclosure of which would compromise sensitive Agency sources and/or current Agency projects or operations.

The above review could best be accomplished through the creation of a task force comprised of representatives from all Agency directorates and preferably of those individuals who were previously involved in preparing Agency information for transmittal to the HSC. As the Review Staff Registry has been kept intact, it would be possible to determine precisely what classified Agency information was provided to the HSC. From a community standpoint, it is suggested that the Intelligence Community Staff initiate a similar review by all other Executive Branch agencies which provided sensitive and classified information to the HSC.

The resulting study would be of value in terms of our commitment to protect the identity and safety of Agency sources and in our future assessments of various programs and projects

CONFIDENTIAL
Approved for Release: 2020/01/31 C02317107

with regard to their success and/or failure. In short, the Agency must be prepared, in advance, to deal with the problems that arise through these unauthorized disclosures of classified information.

3. Recommendation: It is recommended that you approve the creation of a task force, chaired by the Office of Security, comprised of representatives from all Agency directorates to conduct a damage assessment of the classified information and/or documents provided to the now defunct House Select Committee on Intelligence.

DDA 77-1346

10 March 1977

MEMORANDUM FOR: Director of Security

ATTENTION : [redacted] (b)(3) (b)(6)

FROM : [redacted] (b)(3) (b)(6)
DDA Task Force Representative

VIA : Deputy Director for Administration

SUBJECT : Damage Assessment of Material Furnished to the House Select Committee on Intelligence

1. Reference is made to your 29 September 1976 memorandum to the Deputy Director of Central Intelligence which established an Agency-wide task force to conduct a damage assessment of classified Agency information/documents furnished to the now defunct House Select Committee on Intelligence (HSC). Reference limited the assessment to a review of that information which, if compromised, would damage "sensitive Agency sources and/or current Agency projects or operations."

2. The appropriate offices within the Directorate of Administration (DDA) have completed their review of all pertinent documents--copies of which were made available to us by the Review Staff Registry. In terms of the DDA, the HSC primarily focused their attention on the Agency's personnel practices; budgetary matters; relationships with other U. S. Government agencies; the methods through which the Agency procures, stores, and contracts for goods and services; and alleged "improper" activities.

3. In general terms, the HSC was provided with detailed information on almost all aspects of the DDA's past and present functions. Our review revealed that the HSC was fully briefed on some of the Agency's most highly classified activities--the disclosure of which could adversely affect ongoing projects and/or programs within the DDA. A brief outline follows highlighting the materials furnished to the HSC which impact on the DDA and are within the guidelines set forth in reference:

FROM : [redacted]
Special Assistant for Coordination
and Liaison, DDI

SUBJECT : Damage Assessment: House Subcommittee Documents

1. This memorandum is responsive to the request by the Director of Security for a damage assessment relevant to the presumed exposure of the material supplied the House Select Committee on Intelligence. As we understand, the evaluations were ordered to be concentrated on how such exposure would impact on sources and methods or on current Agency operations.

2. This submission will not include the details as sent forward to the ODDI by the various directorate components. It will cover broadly the extent of the consequences of exposures concerning categories of "finished" intelligence products of this directorate. This is done under the assumption that such information would be more useful for your report on the Agency-wide investigations. This memorandum will indicate additional measures we intend to take in order to make the results of our efforts more accessible should actual exposure and possible remedial action become necessary.

REVIEW STAFF 76-077
16 SEPTEMBER 1976

MEMO FOR: MR. SEYMOUR BOLTEN
FROM: REVIEW STAFF REGISTRY
SUBJECT: MATERIAL FURNISHED TO THE SENATE AND HOUSE SELECT COMMITTEES ON INTELLIGENCE BY LINEAR FEET.

1. PERSUANT TO YOUR REQUEST HERE IS THE APPROXIMATE FOOTAGE OF MATERIAL FURNISHED TO THE SENATE AND HOUSE SELECT COMMITTEES ON INTELLIGENCE THROUGH THE REVIEW STAFF REGISTRY.

A. SENATE SELECT COMMITTEE
a. MATERIAL FURNISHED

GENERAL MATERIAL	=	13' 11.6 INCHES
4 BOXES OF BUDGET MATERIAL	=	5' 00.0 INCHES
12 REELS OF MICROFILM	=	9' 6.0 INCHES
TOTAL	28' 05.6 INCHES	= 85,680 PAGES

b. MATERIAL REVIEWED AT HEADQUARTERS CONSISTING OF 5 SAFES OF MATERIAL.

APPROXIMATELY 40' 00.0 INCHES = 120,000 PAGES

B. HOUSE SELECT COMMITTEE
a. MATERIAL FURNISHED

GENERAL MATERIAL	=	4' 9.6 INCHES
4 BOXES OF BUDGET MATERIAL	=	5' 00.0 INCHES
9 REELS OF MICROFILM	=	7' 02.0 INCHES
TOTAL	16' 11.6 INCHES	= 50,900 PAGES

b. MATERIAL REVIEWED AT HEADQUARTERS CONSISTING OF TWO SAFES OF MATERIAL.

APPROXIMATELY 16' 00.0 INCHES 48,000 PAGES

2. THE ABOVE FIGURES ARE BASED ON THE FOLLOWING FORMULA: 250 PAGES TO THE INCH, OR 3000 PAGES TO THE FOOT ONE REEL OF MICROFILM HAS APPROXIMATELY 2400 PAGES TO A REEL AND EQUALS TO 9.6 INCHES.

Approved for Release: 2020/01/31 C02317107

Approved for Release: 2020/01/31 C02317107

3. THIS IS A PAGE BY PAGE COUNT OF THE MATERIAL FURNISHED TO THE SENATE AND HOUSE SELECT COMMITTEES WHICH WAS TAKEN FROM A LOG PREPARRED FOR POTENTIAL FOIA REQUESTS. AS FOR THE MATERIAL REVIEWED AT HEADQUARTERS, IT IS IMPOSSIBLE TO DETERMINE THE EXACT AMOUNT AS THE MATERIAL HAS LONG SINCE BEEN RETURNED TO THE APPROPRIATE DIRECTORATES.EVEN SO THE ABOVE FIGURES SHOULD BE A FAIRLY CLOSE APPROXIMATION.

4. IT SHOULD ALSO BE NOTED THAT THE REVIEW STAFF REGISTRY HAS NO WAY OF DETERMING THE AMOUNT OF MATERIAL FURNISHED TO THE SENATE AND HOUSE SELECT COMMITTEES BY THE IC STAFF. ALSO IT IS OUR UNDERSTANDING THAT ON LIMITED OCCASSIONS LIMITED AMOUNTS OF MATERIAL WAS FURNISHED BY OTHER DIRECTORATES.

11 November 1976

MEMORANDUM FOR: Director of Security

FROM : [redacted] (b)(3) (b)(6)
Chairman, Ad Hoc Damage Assessment Task Force

SUBJECT : Probable Compromise of Information Forwarded to the House Select Committee on Intelligence

1. In response to your memorandum to the Deputy Director of Central Intelligence, dated 29 September 1976, captioned as above, the following action has been taken to implement the approved recommendation.

2. The old Review Staff (RS) Registry was contacted and with the permission of the Executive Registry, it was agreed that RS would forward to Printing Services Division for duplication all hard copy material sent to the House Select Committee. As of this date 2 1/2 linear feet of documents, or about one-half the total amount of House documents, have been reproduced and distributed to the task force for examination.

3. Messrs. [redacted] DD/S&T; Breckinridge and [redacted] IG; [redacted] Comptroller's Office; Fendig, DD/O; Shott, DD/I; Bolton, SA/DDCI; [redacted] Executive Registry; and [redacted] and [redacted] IC Staff have been contacted and briefed on the project. All except IC Staff which will handle community documents separately, have agreed to cooperate and commit manpower to the project as required. As a result of the briefings a task force has been assembled to receive, examine and distribute the documents within the Agency for assessment. The force consists of the following, all of whom (b)(3) (b)(3) (b)(6) (b)(6) (b)(6)

Approved for Release: 2020/01/31 C02317107

Approved for Release: 2020/01/31 C02317107

have had considerable experience with the Senate and House inquiries:

[redacted] - Chairman and Representative for the DCI area and Independent Offices. (b)(3) (b)(6)

[redacted] - DD/A Representative (b)(3) (b)(6)

[redacted] - DD/I Representative (b)(3) (b)(6)

[redacted] - DD/S&T Representative (b)(3) (b)(6)

Norbert Shepanek - DD/O Representative

4. The task force met on 8 November to define its task, estimate the length of time necessary to complete the task and establish procedures for processing the papers within their respective directorates. All agreed that the only feasible approach is a reverse of the old Review Staff tasking method. Each directorate representative will be responsible for controlling and accounting for documents pertinent to his directorate, thereby keeping task force paper work to a minimum. Because of the telescoping nature and interrelationships of the documents, we estimate a completion date for submission of the final report to be 1 February 1977. Time permitting, the final report will hopefully include a damage assessment of House Committee Reading Room documents. Task force meetings will be kept to a minimum and generally scheduled only when necessary to resolve major issues.

5. A standardized assessment report format has been adopted and is as follows:

MEMORANDUM FOR: Director of Security

ATTENTION : [redacted] (b)(3) (b)(6)

FROM : [redacted] (b)(3) (b)(6)
DDA Task Force Representative

VIA : Deputy Director for Administration 14 MAR 1977

SUBJECT : Damage Assessment of Material Furnished to the House Select Committee on Intelligence

DDA REGISTRY BACKGROUND

1. Reference is made to your 29 September 1976 memorandum to the Deputy Director of Central Intelligence which established an Agency-wide task force to conduct a damage assessment of classified Agency information/documents furnished to the now defunct House Select Committee on Intelligence (HSC). Reference limited the assessment to a review of that information which, if compromised, would damage "sensitive Agency sources and/or current Agency projects or operations."

2. The appropriate offices within the Directorate of Administration (DDA) have completed their review of all pertinent documents--copies of which were made available to us by the Review Staff Registry. In terms of the DDA, the HSC primarily focused their attention on the Agency's personnel practices; budgetary matters; relationships with other U. S. Government agencies; the methods through which the Agency procures, stores, and contracts for goods and services; and alleged "improper" activities.

3. In general terms, the HSC was provided with detailed information on almost all aspects of the DDA's past and present functions. Our review revealed that the HSC was fully briefed on some of the Agency's most highly classified activities--the disclosure of which could adversely affect ongoing projects and/or programs within the DDA. A brief outline follows highlighting the materials furnished to the HSC which impact on the DDA and are within the guidelines set forth in reference:

to the HSC, on a document-by-document basis. When one considers the possible ramifications should all of the information furnished to the HSC be compromised, the impact would be felt by all Agency directorates and would severely damage the Agency's ability to perform its foreign intelligence mission.

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : Robert W. Gambino
Director of Security

VIA : Acting Deputy Director for Administration

SUBJECT : Probable Compromise of Information Furnished to the House Select Committee on Intelligence

1. Action Requested: Your approval is requested to assemble an Agency-wide task force to conduct an overall damage assessment of the classified documents and/or information previously furnished by the Agency to the now defunct House Select Committee on Intelligence (HSC).

2. Basic Data: I have been concerned for some time with respect to the improper manner in which classified information supplied to the HSC by the Executive Branch was handled from a security standpoint and which culminated in the leak of the HSC's draft report to Daniel Schorr. As you know, leaks of classified information to the news media by the HSC began shortly after its creation and continued throughout the life of that Committee.

In addition to the news leaks, there have been several allegations (both substantiated and unsubstantiated) concerning classified Agency and Intelligence Community documents which have found their way from the HSC into the hands of unauthorized persons. Two of these allegations have been referred to the Federal Bureau of Investigation (FBI) and in at least one instance (the classified Agency documents found on the West Coast by R&D Associates) the FBI is conducting an active investigation.

The House Committee on Standards of Official Conduct inquiry into the circumstances surrounding the leak of the HSC's draft report to Daniel Schorr generated substantial testimony by former members and staff of the HSC regarding the

degree of protection afforded to classified Executive Branch information by the HSC Staff. This testimony clearly demonstrated that the HSC Staff failed to provide adequate storage and control over classified documents, to include little or no control over the copies made or access to classified material. Further, the magnitude of this situation cannot be determined through an inventory of the sealed cartons stored at the Agency attendant to the "missing documents" allegation, since there is no way of knowing how many copies have been made of these documents nor to whom any such copies may have been provided.

In view of the inadequate security practices employed by the HSC Staff, it would seem to be a fair assumption that much, if not all, of the classified information provided to them by the Executive Branch has been compromised. The allegations and disclosures related to the documents and information provided to the HSC continue to surface at regular intervals, and with each such occurrence the Agency is required to react and prepare a damage assessment on a case-by-case basis.

I feel strongly that the Agency, and perhaps the entire Intelligence Community, should initiate an overall review of the classified information provided to the HSC with a view towards preparing a comprehensive damage assessment. Admittedly, this is an overwhelming task. It could, however, be reduced somewhat by limiting our review to that classified data supplied to the HSC the disclosure of which would compromise sensitive Agency sources and/or current Agency projects or operations.

The above review could best be accomplished through the creation of a task force comprised of representatives from all Agency directorates and preferably of those individuals who were previously involved in preparing Agency information for transmittal to the HSC. As the Review Staff Registry has been kept intact, it would be possible to determine precisely what classified Agency information was provided to the HSC. From a community standpoint, it is suggested that the Intelligence Community Staff initiate a similar review by all other Executive Branch agencies which provided sensitive and classified information to the HSC.

The resulting study would be of value in terms of our commitment to protect the identity and safety of Agency sources and in our future assessments of various programs and projects

with regard to their success and/or failure. In short, the Agency must be prepared, in advance, to deal with the problems that arise through these unauthorized disclosures of classified information.

3. Recommendation: It is recommended that you approve the creation of a task force, chaired by the Office of Security, comprised of representatives from all Agency directorates to conduct a damage assessment of the classified information and/or documents provided to the now defunct House Select Committee on Intelligence.

Robert W. Gambino
